

# **Defense Civilian Personnel Data System (DCPDS)**

**and**

## **The Personnel-Payroll Interface**

**SLDCADA/DCPS/DCPDS USER CONFERENCE**  
**2 - 4 December 2003**

# Customer Profile

**1,250 Activities (Separate UICs)  
Over 184,000 employees serviced**

# OVERVIEW

---

- What is DCPDS
- DCPDS Features
- Payroll Reverse Interface
- DCPDS System Problems and workarounds
- How HR is Organized
- DCPS/DCPDS Interface
  - How it works
- 500 Character Format
- Handling of Packages
- Reporting Problems
- Pay/Pers Recon
- Foreign Entitlements
- Conclusion
- Questions

# Human Resources Triad

## Activity Management

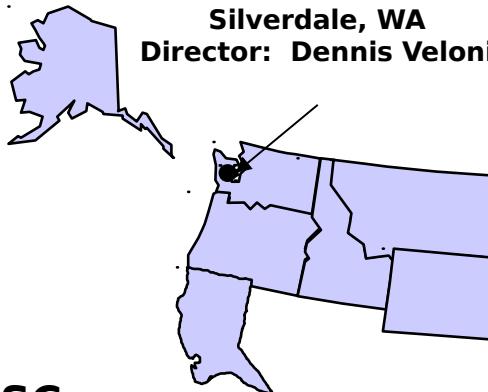

# HUMAN RESOURCES SERVICE CENTERS

## HRSC Northwest

Silverdale, WA

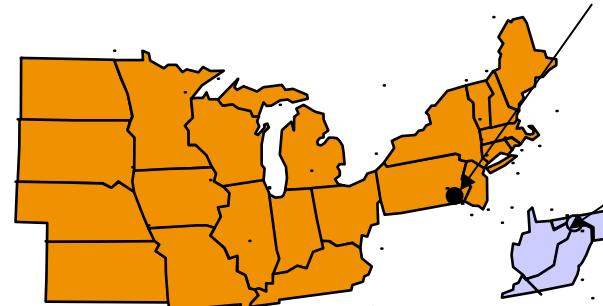

Director: Dennis Veloni

## HRSC Northeast

Philadelphia, PA

Director: John Conwell

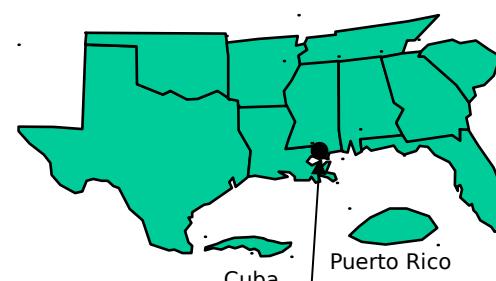

## HRSC Southwest

San Diego, CA

Director: Robbie Allen

## DON HRSCs

## HRSC Pacific

Pearl Harbor, HI

Director: Jeff Wataoka

## HRSC East

Norfolk, VA

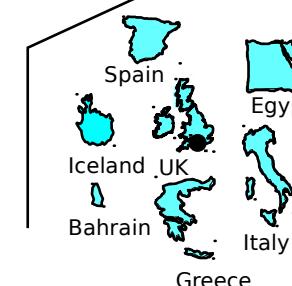

Director: Bill Jackson

## HRSC Europe

London, UK

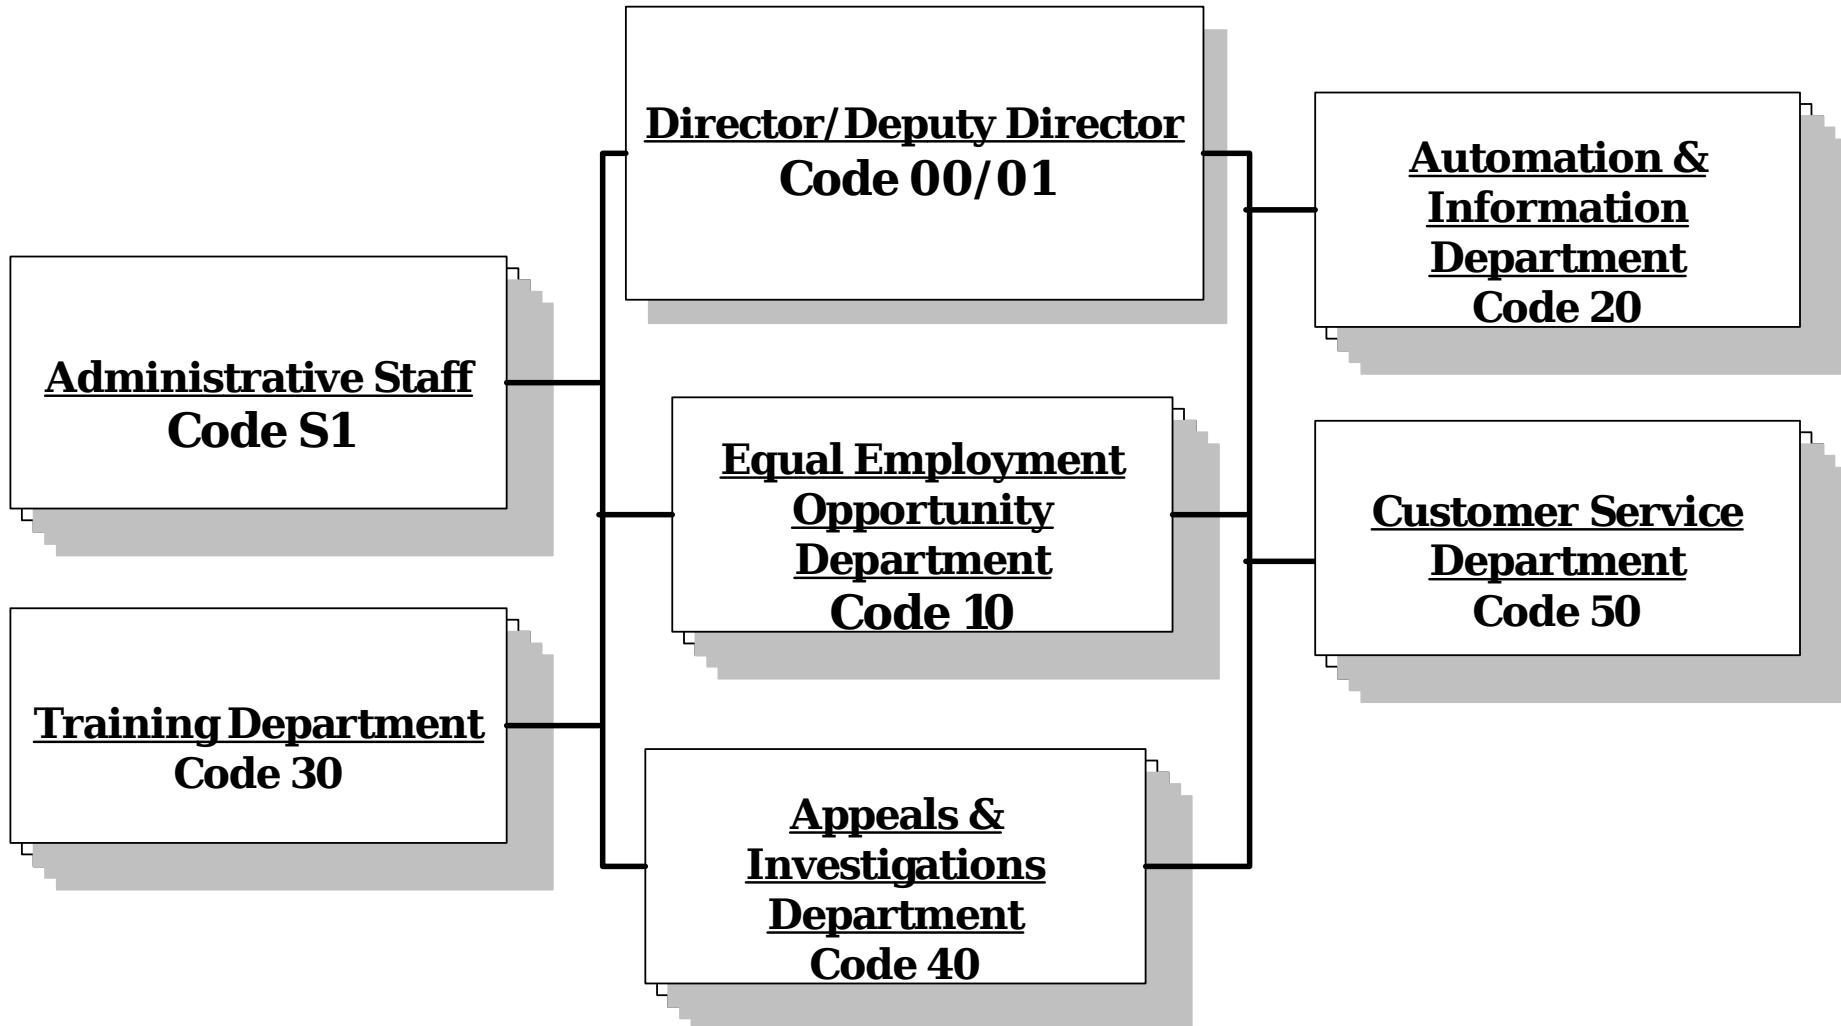

Director: Rondy Waye

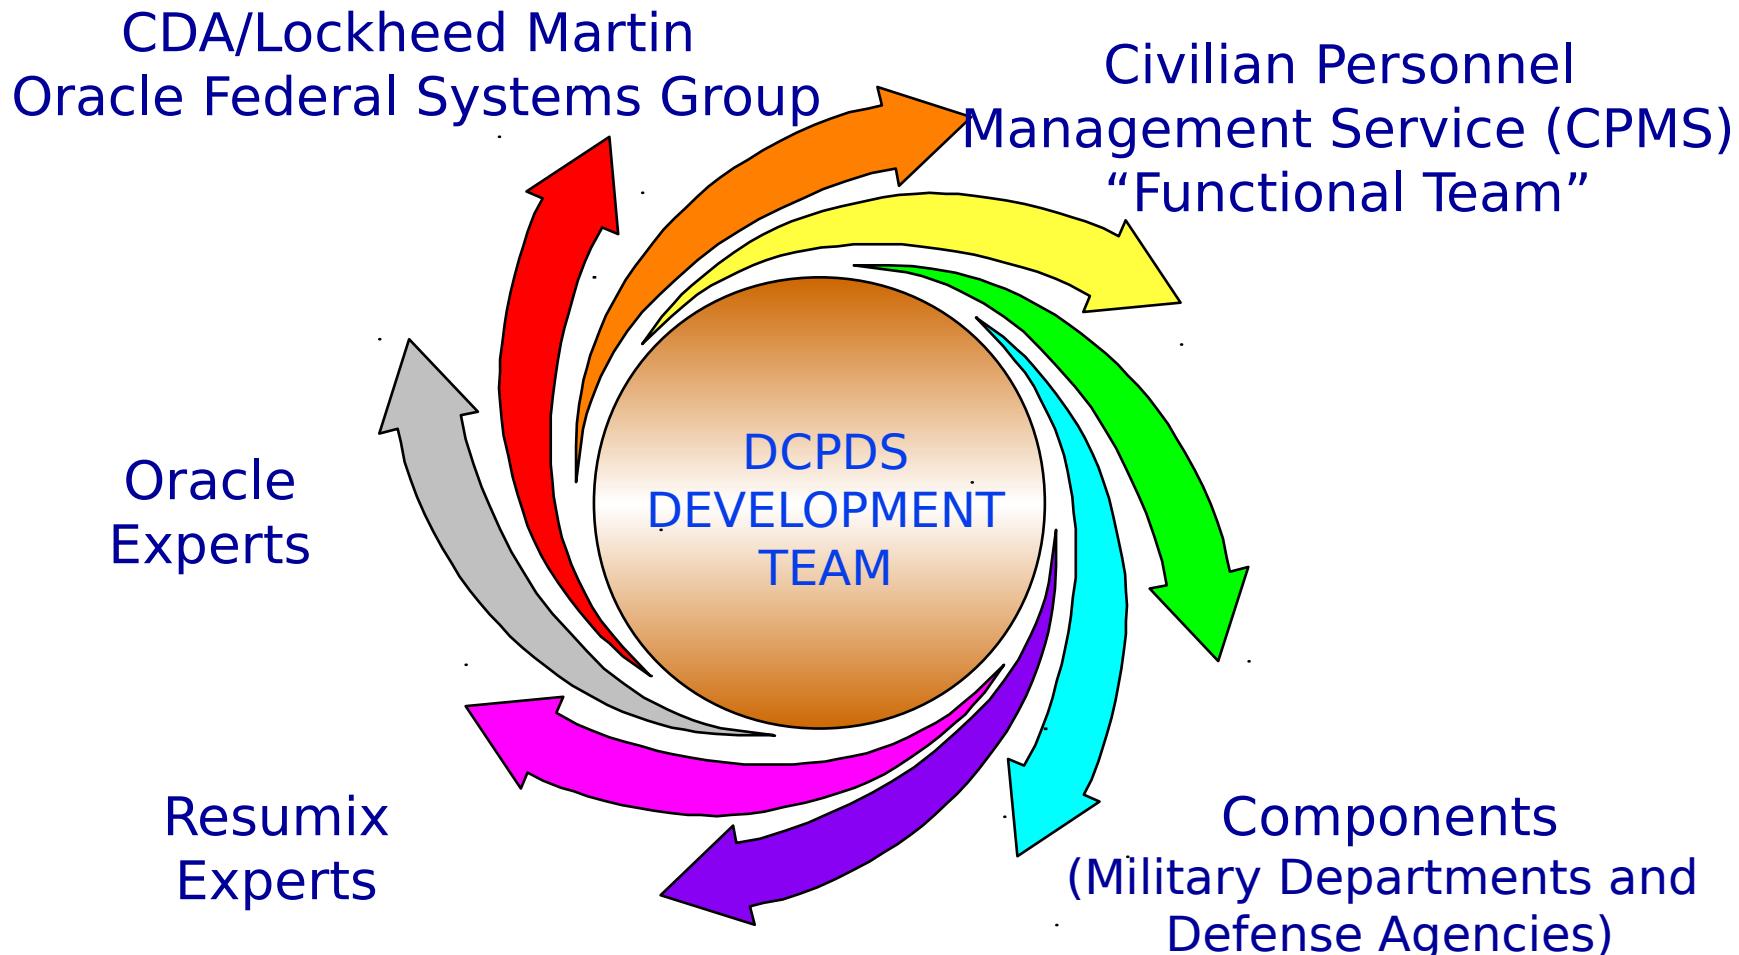

# HRSC

## Organization Chart

# Defense Civilian Personnel Data System (DCPDS)

## WHAT IS DCPDS?

---

- HR System for DOD Employees
- Integrated Database (ORACLE HR, Resumix, and Oracle Training Administrator - OTA)
- DOD Mandated System
- Uses State-of-the-Art Technology (Web based application)

## FEATURES FOR PERSONNELISTS

---

- Date Tracking - A look back in time
- Relational Database, no 5000 character limit
- No limit on occurrences

## NEW FEATURES FOR PERSONNELISTS

---

- View Payroll Transactions Immediately
- Easily Obtained Payroll Interface Report
- Pay Application Data (PAD)
  - ◆ Employee Address Information

# PAYROLL REVERSE INTERFACE

---

- Non-pay Hours
- Non-pay Days
- Intermittent Hours / Days
- Part Time Hours Worked
- Hours Left To Work
- Salary Left To Earn
- Separation Tracking

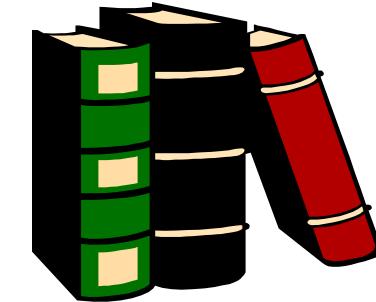

# DCPDS SYSTEM PAY PROBLEMS & WORKAROUNDS

---

- DCPDS/DCPS INTERFACE ISSUES  
REPORTED BY THE HRSCs TO THE OCHR  
PAYROLL POC
- CPMS NEGOTIATES WORKAROUND WITH  
DFAS
- WORKAROUND NOTICE GOES TO ALL  
AFFECTED PARTIES

## **PAYROLL INTERFACE TOOLS**

- Payroll Advisory Letters (PAL)
- DCPS View Access
- CSR Manual -- <http://dfas4dod.dfas.mil/systems/dcps>
- DCPDS User's Guide Module 8 -- Payroll Interface Management [http://www.cpms.osd.mil/regmod/index\\_enterprise.html](http://www.cpms.osd.mil/regmod/index_enterprise.html)

# DCPDS FUNCTIONALITY

## ■ PAYROLL INTERFACE

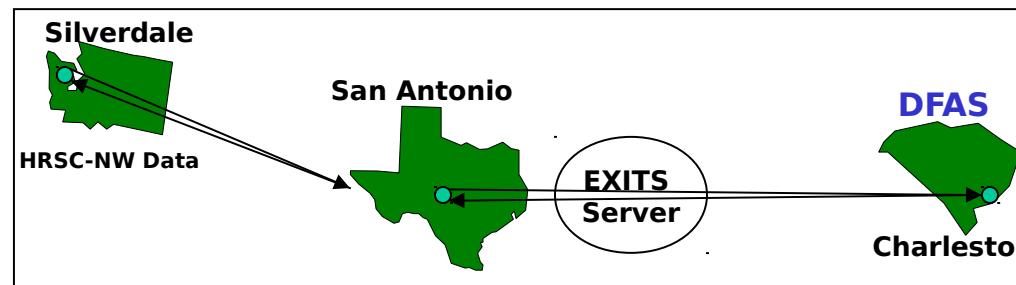

- ◆ Payroll package delivery *from* DCPDS to DFAS
- ◆ Reverse Interface from DFAS *to* DCPDS

### Example

**Payroll package sent from HRSC-NW to the EXITS server**

**EXITS server sends payroll package to DFAS**

**Opposite process for Reverse Payroll Interface**

# PAYROLL INTERFACE OUTPUT OF A PAYROLL RECORD

---

■ Keys to output a payroll action are:

- ◆ Servicing Agency
- ◆ Payroll Interface Flag
- ◆ Payroll Office ID (CH, CY, FF, DA)

# **PAYROLL INTERFACE**

## **500 CHARACTER FORMAT**

### **(PAY500)**

---

- Produced for each pay action
- Shows each personnel action flowed thru the interface (DCPDS to Payroll)
- Helpful when researching rejects/interface problems

# PAYROLL INTERFACE HANDLING OF PACKAGES

---

- DCPS produces a “Return to Personnel” file and sends to DCPDS for processing
  - ◆ DCPDS produces PAYNEW
- DCPS produces a “Payroll Invalid” and sends to individual Payroll Technician for manual processing
- DCPS accepts file and updates record

# PAYROLL INTERFACE

## **“RETURNS TO PERSONNEL” FILE**

---

- Transactions that don't pass DCPS edits
- Rejected transactions remain in a SUSPENDED mode in payroll for two pay cycles
- Actions are waiting for a correction or cancellation to the original rejected action
- If no corrective action is taken, action is deleted after two pay periods

# PAYROLL INTERFACE

## **“PAYROLL INVALIDS” REPORTS**

---

- An action that does not pass the DCPS Edit and is not returned to personnel
- Payroll works this report due to known problems with interface on DCPS side

# PAYROLL INTERFACE

## HOW DO WE KNOW WE HAVE A PROBLEM?

---

- HRSC reviews NPA
- Pay500 not complete or incorrect data
- Payroll calls the CSR or HRSC
- PAYNEW is received
- CSR calls the payroll office or HRSC
- Employee or Timekeeper calls the CSR or HRO

# PAYROLL INTERFACE

## STEPS FOR PROBLEM RESOLUTION

---

- Review DCPDS input and Employee Record
- Research the Pay500 to ensure action flowed to payroll
- Input corrections ASAP if problem is caused by erroneous input in personnel
- Report inability to see new hire/action in DCPS to HRSC Pay POC
- If problem cannot be resolved, it is reported to OCHR-Pay POC via HRSC

# PERSONNEL - PAYROLL RECONCILIATION

---

- The process of matching data in DCPDS and DCPS
- Essential to ensure accuracy of employee pay and benefit participation
- Identifies system shortfalls in both systems
- Process and effectiveness reviewed by DOD-IG, GAO, and Agency HQs

# PERSONNEL - PAYROLL RECONCILIATION

---

---

- Processed at least 3 times a year
- Recon schedule varies by service
- Reconciliation should be accomplished within 2 pay periods after receiving the reports
- Time sensitive data

# PAYROLL INTERFACE FOREIGN ENTITLEMENTS

---

- Living Quarters Allowance
- Post Allowance
- Danger Pay
- Imminent Danger Pay
- Separate Maintenance Allowance
- Post Differential
- Home Leave

# PAYROLL INTERFACE CONCLUSION

- DCPDS works/features facilitate research of pay problems
- Payroll Interface works
- All users must be trained on the process
- All must work together for the common goal of paying employees accurately and timely
